In prayers and Solidarity,
The Kenyan Team

Spring 2022 Newsletter

Adapting to Change

The disruptions brought about by the pandemic gave rise to many changes in the Country's Academic Calendar. Students have had to learn within a much shorter time to catch up and recover lost time.

Despite this, we thank God that teachers and staff at Moto Hope have continued to create a conducive and enjoyable environment to holistically educate and nurture students.

End of 2021 School Year

The 2021 school year that started in July 2021 finally came to a close in March of this year. Our students are excited to transition to the next class, especially the preschoolers who graduated to join grade 1.

Molo Medical and Dental Missions Trips

The Molo Medical and Dental Mission teams have continued to give many beneficiaries their much-needed medical care and relief; which some wait for many years to receive treatment care. Free minor surgeries and Dental care were provided during the past two trips in October of last year and January this year.

Our students at St. Francis School have been among the hundreds of beneficiaries from the neighboring villages. Nonetheless, there are plans for more medical mission trips from 12th to 14th October, 2022.

More information can be found at www.molomedicalmissions.org

IMPACT STORIES

Moto Hope Academy Alumni Success Stories

Lucy Muthoni is our 2019 graduate. She will be starting her third year of high school at a girls' national high school in April when the new school year begins. She wants to study medicine in a few years.

She says; *"I was privileged to attend Moto Hope Academy. The academic discipline instilled in me and the mentorship I continue to receive has set me still on a path to success. I'm very thankful that Moto Hope is still assisting me by paying my high school fees."*

Liban Chana Wako says; *"What I liked most about St. Francis was the amazing environment to study, where a great reading culture was inculcated in us. We would study without being pushed because we were made to understand why we needed to do well. I also love that we were taught within a Christian ethical environment and the Catholic tradition. A lot of life skills which have come in very handy for me were also imparted at the time."*

Liban is glad to share what he is up to after high school, which he graduated in 2019. He says, *"I had to help my parents and myself after graduating. I worked menial jobs for one and half years to save some money so that I could pursue a short course in software development at a technical college."*

Our mentorship program is working with Liban to see that his dream to succeed comes to fruition. These kinds of stories show that your support and partnership have a huge impact on those whom we reach out to especially to educate.

These past years have been challenging but God has guided and walked with all of us. We are grateful for your willingness to journey with us, extending a hand to those in need.

Moto Hope Micro-lending – Beneficiary

Percilla Anyango, Tailor - Percilla's passion and great tailoring skills have seen her train a total of 15 young women in the last two years. At any given time, she also creates employment for at least two such women who work alongside her. The micro-lending program has boosted her business with loans amounting to **\$800** as a line of credit. The funding has not only kept the single mother in business enabling her to support her family, but also empowered other women and youth, with skills and job opportunities.

Additionally, our program has been offering business consultancy and training services. These have positively transformed the way Percilla and other entrepreneurs do business. Percilla now keeps an up-to-date customer database which assists her to reach out to them whenever she has replenished.

May God continue to bless you and your families.

Class of 2021 Excels in Their National Examinations!

The graduating class of 2021 did their standardized national exams early March this year and performed exemplarily well. All our 57 graduate students in 8th grade scored above average with a mean score of 355.39 out of 500 marks in all subjects. This is a positive deviation of 14.08 from the previous graduating class of 2020 that had a mean score of 341.31. The national average of this examination class of 2021 that had over 1.2 Million children was 241.0 mean grade.

100% Transition to High school guaranteed!

All our students have attained grades that will grant them admission to better high schools nationally and within our region. We are proud of our students and wish them well as they now transition to high school starting in May 2022 this year.

Thank You for Your support!

We thank you for supporting and collaborating with us in making St. Francis an exceptional school in our region. We are grateful to God for this progress of our students' academic success due to their resilience, hard work, discipline and determination despite the interruption brought about by the pandemic in the past years.

We also thank our teachers and staff for their team work and dedication. In addition, we thank our parents, school management, our partners and friends, for their commitment, support, and sacrifices that have all contributed to this success. May God bless us all as in God we truly Trust!

The combined will of purposeful and rightful goals, are definitely leading us to contribute in shaping a better world, one student at a time by God's grace!
